value

£ 1.1m – Electrical & Instrumentation Project

The Rosebery Group have recently completed the E & I works for the Bridgewater Paper C.H.P. Plant in Ellesmere Port. They completed the project within the original programme, which was 27 week duration. Their approach was positive throughout and they performed well alongside the Kvaerner site team. We would be happy to work with the Rosebery Group in the future and would have no hesitation in recommending them for works of a similar nature.

J.M. Sampson - Site Manager, Kvaerner

project details

electrical / instrumentation design services
