

**client**  
upm-shotton paper

**business**  
paper manufacturer

**address**  
shotton, deeside

**project**  
£ 600 000

The Rosebery Group have been associated with Shotton Paper Company since 1987 during the build of the second paper machine, as an installation contractor. They have now progressed and have the expertise to both design and install from resources within the company. They appreciate the tight constraints of both budget control and installation targets and operate on a partnership system to achieve all aims. The Rosebery Group are active in Health & Safety and Quality Control and pro-active with any new H.S.E. legislation. There is also a comprehensive training policy of which I have witnessed. I would have no hesitation in recommending The Rosebery Group for Automation Design and Installation Contracts.

RT Gerrard - Automation Engineer UPM

#### project details

electrical and instrumentation installation project

electrical distribution, power and lighting

instrumentation systems

panel manufacture and supply

data communication systems

plant shutdown work accommodated within programme

20,000 man hours worked - no lost time accidents

40 week project completed on time and within budget
